However, the evidence collected must allow the student to demonstrate all requirements of the unit.

Refer to the Student Handbook or contact your Trainer for further information.

Please consider the environment before printing this assessment.

## TASK 1: Role-Play

Task 1 requires you to participate in a meeting with another participant using a system such as Zoom, Skype or Teams.

The role-play requires you to discuss the two (2) WHS incidents and the risk assessment that were completed in Assessment 2. You have organised to meet with the WHS Committee Member/Fitness Trainer (role-played by another participant).

In this meeting, you will:

- briefly explain the two (2) workplace incidents (*Bounce Fitness Incident Reporting Forms*) and actions taken to resolve the injury and illness
- briefly explain the outcomes of the risk assessment (*Version 1 Bounce Fitness Risk Assessment Form*) you recently completed on a Bounce Fitness partner gym.
- Collaborate and discuss with the WHS Committee member/Fitness Trainer where current controls at the Bounce Fitness partner gym are insufficient. Identify and discuss one additional control, decide together who will action this, and the date to be actioned.
- Discuss training needs of your work team.

Take notes to ensure you capture all new information.

### Role play instructions

The role-play/meeting must include at least 2 participants, must not exceed 10 minutes in duration and must address all elements of the Observation Checklist below.

In this task you will participate in a role-play/meeting with one (1) other person. This person may be resourced using one of the following options:

1. A peer who you are already working with, in the industry your qualification relates to.
2. A fellow student who will play the role of the WHS Committee Member/Fitness Trainer. Please contact your fellow students via the Discussion Forum and coordinate your role play with them directly.

If you are unable to find a participant to play the role of the WHS Committee Member/Fitness Trainer, contact your assessor via the Discussion Forum who will discuss options for pairing up with another student to complete this task.

### Option 1: Peer participant

Should you complete this task with a Peer, you must fully brief the participant, providing them with the context to the role-play/meeting, a role outline to play and a copy of the observation checklist so that they can prepare for the recording.

Peers will need to state their name and job title at the start of the recording to inform consent.

### Option 2: Fellow student participant

Fellow students participating in the recording must be provided with context to their role and responsibilities in the session and have reviewed the assessment activity and observation checklist so that they can prepare for the recording.

Students will need to state their name and that they are a student (as their job title) at the start of the recording to inform consent.

### Recording instructions

Your role play must be recorded with all participants captured in a virtual room using a system such as Zoom, Skype or Teams.

Consent to participate in the recording must be captured for all participant/s at the start of the meeting. This is achieved by the student reading the following statement at the start of the recording, with all participants replying with their name and job title to inform consent.

*"This session/presentation is being recorded for assessment purposes for my course with Colab. This session will be recorded and submitted through my course online learning platform to my Assessor for grading. All participants in this session indicate their consent to be included in this recording by stating their name and job title."*

The time taken to capture consent at the start of the recording does not count towards the recording time limit.

Include this recording as part of your assessment submission.
