You will continue your role as a Senior Fitness Instructor at Bounce Fitness the other participant will role-play the Bounce Fitness Manager. During the role-play meeting, you will discuss the draft documents and PowerPoint Presentations you developed in Assessment 2 to ensure the information in each is cohesive and satisfies their purpose and requirements. Participants' briefing instructions

Before commencing your recording, you must fully brief the participants, providing them with the context of the role-play/meeting and briefing instructions so that they can prepare for the recording.

Participant 1 Student - Senior Fitness Instructor

The purpose of this meeting is to meet with the Bounce Fitness Manager and for you to present and discuss your draft Business Case for purchasing new gym cleaning machines, draft PowerPoint Presentation for staff and draft Procedure for Caring for and Maintaining Floor Scrubber.

Before the role-play meeting

- any additional material to add to your drafts
- revisions to be implemented in your drafts.

During the meeting, you must ask the Bounce Fitness Manager the following questions:

1. Could you please clarify if there are any specific details or data missing from the draft Business Case that would strengthen my proposal for purchasing the new gym cleaning machines?
2. In terms of the draft PowerPoint Presentation, are there any topics or information that you believe should be expanded upon or included to ensure that our staff are well-informed about the new cleaning equipment and procedures?
3. Regarding the draft Procedure for Caring for and Maintaining Floor Scrubber, do you have any suggestions for revisions or improvements to make the instructions more comprehensive or easier to follow for our maintenance staff

You have been approved a capital budget of \$50,000 which is released through the normal Bounce Fitness purchasing process.

Machines must include:

- Floor scrubber machines
- Heavy duty janitor trollies
- Commercial 3 in 1 shampoo carpet cleaning machine.

You have also been asked to develop a PowerPoint Presentation (for staff) based on the Business Case and a Procedure for Caring for and Maintaining Floor Scrubber.

Before the role-play meeting

- Familiarise yourself with role-play scenario.
- Review the:
 - Draft Business Case
 - Draft PowerPoint Presentation
 - Draft Procedure for Caring for and Maintaining Floor Scrubber
 - Bounce Fitness Style Guide

During the role-play meeting

The purpose of this role-play meeting is to review the student's draft documents and PowerPoint Presentation and provide feedback which the student must incorporate into the final documents. The meeting should be no more than ten (10) minutes.

The student will talk through the following draft documents:

- draft Business Case
- draft PowerPoint Presentation
- draft Procedure for Caring for and Maintaining Floor Scrubber.

During the meeting, you will be asked three questions by the student. The responses you provide must be based on the information contained in the Bounce Fitness Style guide and your own personal experience in the industry.

For example, when asked

1. *Could you please clarify if there are any specific details or data missing from the draft Business Case that would strengthen my proposal for purchasing the new gym cleaning machines?*

Approach this question by focusing on fundamental aspects of a business case rather than industry-specific details. Also, consider if the student has followed the document format, style and structure guidelines in the Bounce Fitness Style Guide. A possible response may be,

'In today's market, there's a growing emphasis on sustainability and eco-friendly practices. Therefore, it would be beneficial to include information on the energy efficiency ratings of the machines, any eco-friendly cleaning solutions they utilize, and their overall carbon footprint.'

Other possible feedback areas for the Business Case.	<ul style="list-style-type: none"> • More information on the benefits of machines • Conditions of warranties • Maintenance costs • Image/s of recommended machines • Hyperlinks to websites where machines can be purchased • Link to a video demonstration of maintaining equipment • Contact details of suppliers for maintenance issues
--	---

For example, when asked

2. *In terms of the draft PowerPoint Presentation, are there any topics or information that you believe should be expanded upon or included to ensure that our staff are well-informed about the new cleaning equipment and procedures?*

Approach this question by focusing on general principles of effective communication rather than industry-specific details. A possible response may be,

'Our staff may have varying levels of familiarity with these machines, so it's crucial to ensure that the presentation covers everything from basic operation to troubleshooting common issues.'

Other possible feedback areas for PowerPoint.	<ul style="list-style-type: none"> • More information on the benefits of machines • Conditions of warranties • Maintenance costs • Image/s of recommended machines • Hyperlinks to websites where machines can be purchased • Link to a video demonstration of maintaining equipment
---	--

	<ul style="list-style-type: none"> • Contact details of suppliers for maintenance issues
--	---

For example, when asked

3. *Regarding the draft Procedure for Caring for and Maintaining Floor Scrubber, do you have any suggestions for revisions or improvements to make the instructions more comprehensive or easier to follow for our maintenance staff?*

Approach this question by considering general principles of procedural documentation and user-friendliness rather than industry-specific details. A possible response may be,

'One suggestion for improvement is to include more visual aids or diagrams to supplement the written instructions. Visual representations can often simplify complex procedures and make them easier to understand, especially for our maintenance staff, who may have varying levels of technical expertise.'

Other possible feedback areas for the procedure.	<ul style="list-style-type: none"> • Visual or graphic of the key piece of machinery • Flow chart of procedure steps • Manufacturers contact details • Maintenance guidelines • Conditions of warranty • Safety information, for example, Personal Protective Equipment
--	---

You must:

- ensure students have included a minimum of one (1) visual or graphic (in a document or the PowerPoint Presentation).
- identify at least one gap (for example, data, information, knowledge, or additional materials) that the student must incorporate into each of the two documents and the PowerPoint Presentation). Potential gaps are provided in the following table.

Recording instructions

Your role play must be recorded with all participants captured in a virtual room using a system such as Zoom, Skype or Teams.

Consent to participate in the recording must be captured for all participants at the start of the meeting. This is achieved by the student reading the following statement at the start of the recording, with all participants replying with their name and job title to inform consent.

"This session/presentation is being recorded for assessment purposes for my course with Colab. This session will be recorded and submitted through my course online learning platform to my Assessor for grading. All participants in this session indicate their consent to be included in this recording by stating their name and job title."

The time taken to capture consent at the start of the recording does not count towards the recording time limit.

Save the video recording using the following naming convention,

BSBWRT411_StudentName_yymmdd_Tasknumber_Role Play.

Include this recording as part of your assessment submission.

Assessor Instructions

The role-play requires a ten (10) minute meeting between a Senior Fitness Instructor played by the student and a participant acting as the Bounce Fitness Manager. They will discuss draft documents and PowerPoint Presentations developed in Assessment 2 to ensure they are cohesive and meet their purpose. The focus will be on identifying information gaps, discussing additional material, and identifying revisions needed for the drafts.
