ACMGEN201

Work in the animal care industry

Assessment 1 of 2

ASSESSOR GUIDE

Quiz Questions

Assessment Instructions

Task overview

This assessment task includes 30 quiz questions. Read each question carefully before typing your response in the space provided. To achieve a satisfactory for this assessment, all 30 questions must be answered correctly.

This unit of competency consists of 2 knowledge assessments completed in this module.

In addition to the Structured Workplace Learning and Assessment (SWLA).

You must complete both sets of assessments related to this unit to be deemed competent.

Assessment Information

Submission

You are entitled to three (3) attempts to complete this assessment satisfactorily. Incomplete assessments will not be marked and will count as one of your three attempts.

All questions must be responded to correctly to be assessed as satisfactory for this assessment.

Answers must be typed into the space provided and submitted electronically via the LMS. Hand-written assessments will not be accepted unless previously arranged with your assessor.

Reasonable adjustment

Students may request a reasonable adjustment for assessment tasks.

Reasonable adjustment usually involves varying:

- the processes for conducting the assessment (e.g. allowing additional time)
- the evidence gathering techniques (e.g. oral rather than written questioning, use of a scribe, modifications to equipment)

However, the evidence collected must allow the student to demonstrate all requirements of the unit.

Refer to the Student Handbook or contact your Trainer for further information.

Please consider the environment before printing this assessment.

Quiz QUESTIONS

Question 1: What are the nine taxonomic traits to help with animal classification?

Instruction: Only one correct answer.

Answers:
- Breed, animal, life span, risk to humans, location, relationship, reproduction, organism, colour
- Life, Domain, Kingdom, Phylum, Class, Order, Family, Genus, Species
- Sound, Lifespan, Order on food chain, Genetics, Location, Risk, Colour, Teeth, Smell

Question 2: When trying to identify a species of animal, what are some identifiable characteristics of animals that can help you?

Instruction: Only one correct answer.

Answers:
- a) Age, Sex, Markings
- b) Nicknames, Diet, Location
- c) Owner, transport , origin

Question 3: In the list below, identify which cleaning agents would be suitable in an animal care setting
Only one correct answer.

Instruction:

Answers:
- a) WD-40 Peroxide, Soap and Water
- b) Soap and Water, detergent
- c) Bleach, Paint Thinner, Fabric Softner

Question 4: Height, sex, colour & markings, whirl. These characteristics describe which type of animal?

Instruction: Only one correct answer.

Answers:

- a. Reptile
- b. Bird
- c. Horse
- d. Guinea pig
- e. Cat

Question 5: Feather colour and type, Beak shape, size, gape, tongue type. These characteristics describe which type of animal?

Instruction: Only one correct answer.

Answers:

    a. Reptile
    b. <mark>Bird</mark>
    c. Horse
    d. Guinea pig
    e. Cat

Question 6: Different species, colour, scales, venom, constrictor. These types of characteristics describe which type of animal?

Instruction: Only one correct answer.

Answers:

    a. Rabbit

    b. Lizard

    c. <mark>Snake</mark>

    d. Dog

    e. Sheep

Question 7: Identify the animal in the picture below.

Instruction: Only one correct answer.

Answers:

    a. Rabbit

    b. Sheep

    c. Snake

d. Dog

e. Cat

Question 8: Identify the animal in the picture below.

Instruction: Only one correct answer.

Answers:

a. Llama

b. Sheep

c. Fish

d. Dog

e. Cat

Question 9: Identify the type animal in the picture below.

Instruction: Only one correct answer.

Answers:
a) Reptiles
b) Livestock
c) Fish

d) Birds

Question 10: Identify the animal in the picture below.

Instruction: Only one correct answer.

Answers:

a. Llama

b. Sheep

c. Fish

d. Dog

e. Cat

Question 11: The images below are animal's identifiable characteristics of?

Instruction: Only one correct answer.

Answers:
a) Teeth
b) Coats and skin colour
c) Tattoos
d) Behaviour

Question 12: The images below are animal's identifiable characteristics of?

Instruction: Only one correct answer.

Answers:
a) **Markings and patterns**
b) Age
c) Sex
d) Behaviour and Temperament

Question 13: In the video below, describe what the animal is demonstrating

Walking Lion.mp4

Instruction: Only one correct answer.

Answers:

a) Dancing
b) <mark>Movement and Behaviour</mark>
c) Cleaning
d) Animal Management

Question 14: In the image below, what is the identifiable characteristic displayed on the animal?

Instruction: Only one correct answer.

Answers:
a) <mark>Ear tag</mark>
b) Collar
c) Leash
d) Tattoo

Question 15: Siamese, British Shorthair, Persian, Sphynx are breeds of what animal?

Instruction: Only one correct answer.

Answers:
a) Lizard
b) Sheep
c) Dog
d) <mark>Cat</mark>
e) Fish

Question 16: Australian Shepherd, Australian Blue Heeler, Australian Kelpie, Australian Terrier are breeds of what animal?

Instruction: Only one correct answer.

Answers:
a) Lizard
b) Sheep
c) <mark>Dog</mark>

d] Cat

e] Fish

Question 17: Read the following statements and identify is this is True or False.

- A full-time employee is engaged for an average of 38 ordinary hours per week.
- The maximum length of the ordinary hours for a single shift must not exceed 10 hours, not including meal breaks.

Instruction: Only one correct answer.

Answers:

   a. <mark>True</mark>

   b. False

Question 18: Read the following statements and identify is this is True or False.
Does the following legislation apply for Workplace Health and Safety for the Animal Care Industry

- Animal Care WHS Act 2010

Instruction: Only one correct answer.
Answers:
a. Bites, scratches, aggression

b. Talk back, attitude
c. Slip, trip , fall

Question 26: Review the statement below and identify which animal/ species it relates to.
Housing: Need species-specific enclosures with proper heating, lighting, and humidity. The habitat should mimic their natural environment.
Exercise: Provide climbing structures, hides, and space for movement. Regular handling can also offer exercise and enrichment.
Social Needs: Many animal/ species are solitary, but some species may benefit from limited social interaction.
Activity Needs: Enrichment activities like varied habitat decor, and handling sessions keep animals engaged.

Instruction: Only one correct answer.
Answers:
a. Horses
b. Fish
c. Reptiles
d. Mammals

Question 27: Review the statement below and identify which animal/ species it relates to.
Housing: Indoor animals need a safe and enriched environment with access to scratching posts, and hiding spots. Outdoor access should be supervised or in a secure enclosure.
Exercise: Animals need opportunities for play to mimic hunting behaviours. Laser pointers, feather toys, and interactive play sessions help keep them active.
Social Needs: While animal are more independent, they still require social interaction with humans and sometimes other animals. Socialisation from a young age is beneficial.
Activity Needs: Enrichment activities like puzzle feeders, climbing trees, and exploration of new environments keep animal mentally and physically stimulated.
Instruction: Only one correct answer.
Answers:
a. Cats
b. Dogs
c. Sheep
d. Monkey

Question 28: Review the statement below and identify which animal/ species it relates to.
Housing: Animals need a large cage with enough space move around. The cage should include perches, toys, and feeding stations.
Exercise: Animals require time outside their cage to explore in a safe environment.
Social Needs: Many animal species are highly social and need interaction with their owners or other breeds. Lack of social interaction can lead to behavioural issues.
Activity Needs: Provide toys that encourage foraging, climbing, and problem-solving to keep animal mentally and physically active.

Instruction: Only one correct answer.

Answers:
a. Monkey
b. Livestock
c. Birds
d. Fish

Question 29: Review the statement below and identify which animal/ species it relates to.
Diseases: Equine influenza, equine herpesvirus, strangles, laminitis.
Ailments: Colic, arthritis, respiratory issues (heaves), hoof abscesses.
Injuries: Fractures, tendon and ligament injuries, lacerations.
Other Impacts: Obesity, stress from isolation, and behavioral issues from lack of exercise and mental stimulation.

Instruction: Only one correct answer.

Answers:
a. Reptiles
b. Fish
c. Livestock
d. Horses

Question 30: Review the statement below and identify which animal/ species it relates to.
Diseases: Canine distemper, parvovirus, kennel cough, rabies, Lyme disease.
Ailments: Arthritis, hip dysplasia, skin allergies, ear infections, dental disease.
Injuries: Fractures, ligament tears (e.g., ACL), cuts and lacerations, heatstroke.
Other Impacts: Obesity, anxiety, and behavioral issues from lack of socialization and exercise.

Instruction: Only one correct answer.

Answers:
a. Dog
b. Cats

c. Rabbit

d. Snake
