## Assessment Instructions

### Task overview

This assessment task includes 10 quiz questions. Read each question carefully before typing your response in the space provided. To achieve a satisfactory for this assessment, all 10 questions must be answered correctly.

In addition to the Structured Workplace Learning and Assessment (SWLA).

You must complete both sets of assessments related to this unit to be deemed competent.

## Assessment Information

### Submission

You are entitled to three (3) attempts to complete this assessment satisfactorily. Incomplete assessments will not be marked and will count as one of your three attempts.

All questions must be responded to correctly to be assessed as satisfactory for this assessment.

Answers must be typed into the space provided and submitted electronically via the LMS. Hand-written assessments will not be accepted unless previously arranged with your assessor.

### Reasonable adjustment

Students may request a reasonable adjustment for assessment tasks.

Reasonable adjustment usually involves varying:

- the processes for conducting the assessment (e.g. allowing additional time)
- the evidence gathering techniques (e.g. oral rather than written questioning, use of a scribe, modifications to equipment)

However, the evidence collected must allow the student to demonstrate all requirements of the unit.

Refer to the Student Handbook or contact your Trainer for further information.

Please consider the environment before printing this assessment.

## Quiz Questions

Question 1: What is the primary purpose of providing behavioural and environmental enrichment for animals?

A) To improve the physical appearance of animals

**B) To prevent boredom, encourage natural behaviours, and improve animal welfare**

C) To increase the cost of animal care

D) To make the enclosure look more attractive

Question 2: What is the main difference between short-term and longer-term enrichment schedules?

A) Short-term schedules are for social activities, while longer-term schedules are for solitary activities.

B) There is no difference; both schedules serve the same purpose.

C) Short-term schedules focus only on physical enrichment, while longer-term schedules include behavioural enrichment.

**D) Short-term schedules are typically less detailed than longer-term schedules.**

Question 3: A short-term enrichment schedule can help assess the immediate impact of enrichment on animal behaviour.

**A) True**

B) False

Question 4: Recording animal behaviour can help identify stress indicators that may require changes in enrichment strategies.

**A) True**

B) False

Question 5: What is the primary goal of observing animal behaviour in an enrichment context?

A) To determine the animal's weight

**B) To identify and encourage natural behaviours**

C) To make the enclosure more visually appealing

D) To increase the animal's appetite
