# Coursework Forum setup instructions

What steps should you take to complete this task?

Set aside up to 15 minutes to complete steps 1-5 below.

1. Navigate to the second forum in the navigation bar on the left—this is where you'll set up your Coursework Thread for sharing and feedback. The first forum on the list is this module's Discussion Forum, as per previous modules.

2. Select the **New thread** link once you land on the Coursework Forum.
3. In the **Subject** field, enter your first and last names.
4. In the **Message** field, enter one or two sentences describing what you know about the topic – e.g. what's been your experience with creating 2-D and 3-D graphic designs?
5. Select **Post to forum** at the end of the page.

What should you do after completing this task?

Keep progressing through this module. Whenever you get to a 'Practice' learning task, read it carefully to check whether you need to share your graphic design coursework (e.g. a JPEG or PNG file) to the Coursework Forum. You will be provided with a direct link to the Coursework Forum to save you having to locate it again.

Remember:

- The Coursework Forum is the second forum on the list. Use this space for submitting and discussing your 2-D and 3-D graphic design tasks when prompted. The first forum on the list is this module's Discussion Forum, as per previous modules.
- Reach out to your tutor if you have questions about how to use the Coursework Forum or any other aspect of your study.

Diploma of Graphic Design
19. Produce graphic designs for 2-D and 3-D applications
19.1.1 Progressing through this module
