Crisis or emergency support & help

April 2023

In a crisis or emergency

If someone has attempted suicide or you're worried about their immediate safety, do the following:

Call your local mental health crisis assessment team or go with them to the emergency department (ED) of your nearest hospital

If they are in immediate physical danger to themselves or others, **call 111**

Stay with them until support arrives

Remove any obvious means of suicide they might use (e.g. rope, pills, guns, car keys, knives, poisons).

If they live in a high-rise building, help them find somewhere to stay in single-level accommodation.

Try to stay calm, take some deep breaths. Let them know you care

Keep them talking: listen and ask questions without judging

Make sure **you are safe**

For further information about support and services in your area, contact the Mental Health Foundation Resource and Information Service;
