

NZMA Pharmacy Level 5

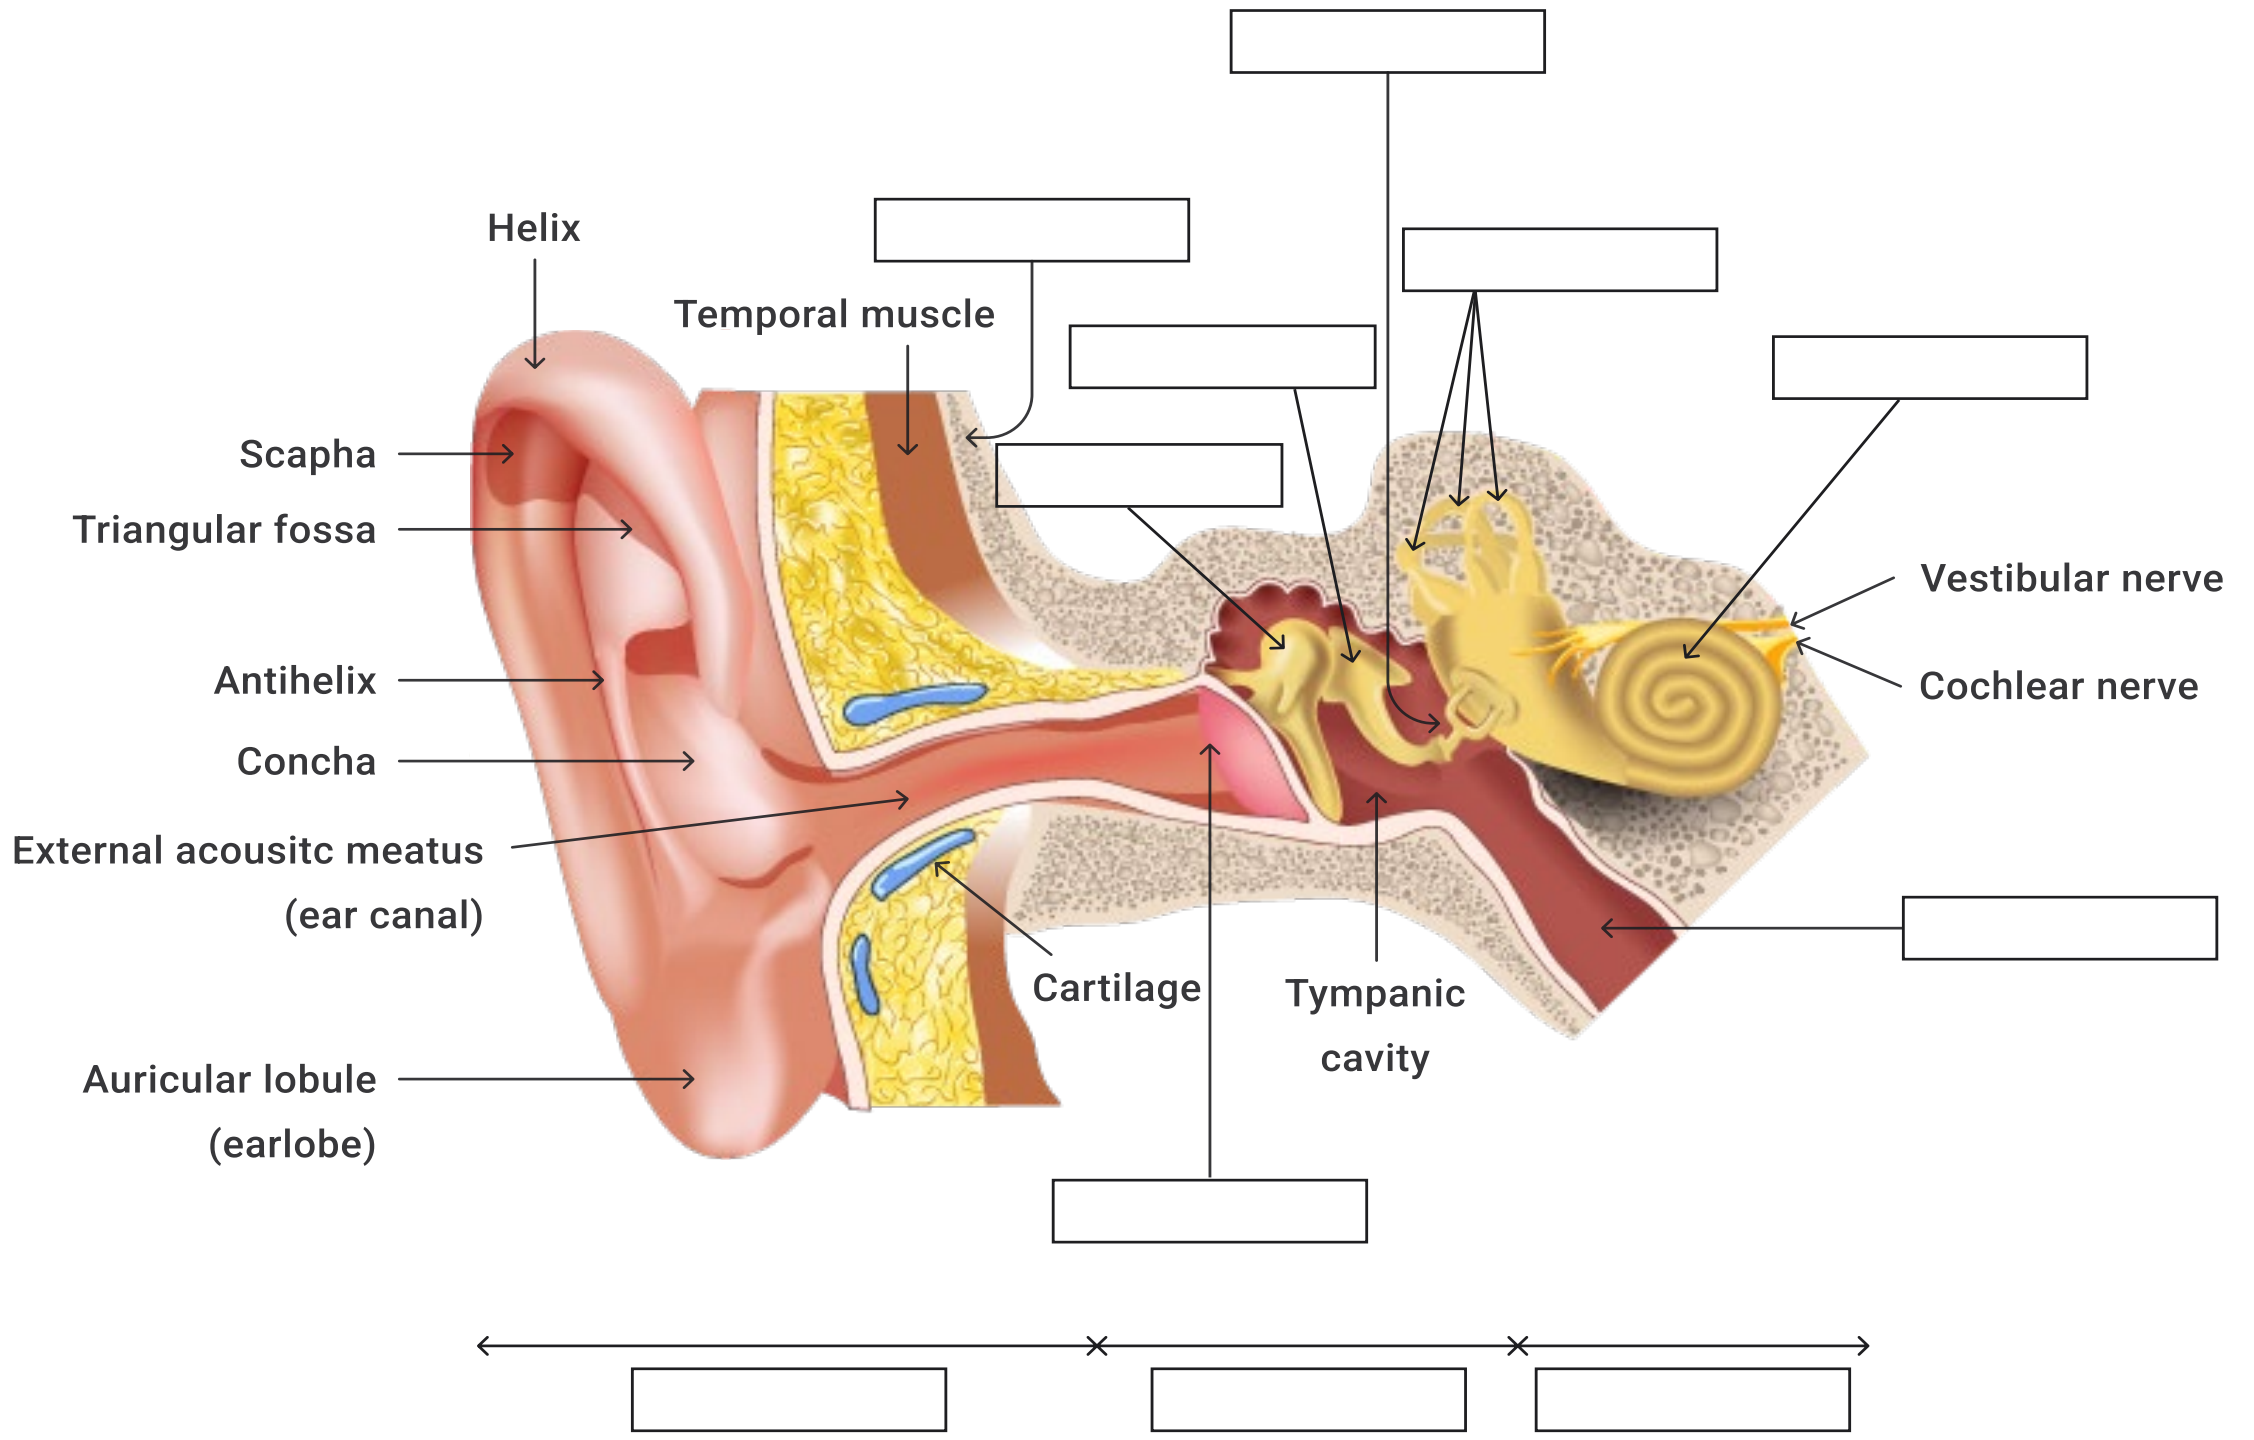

Week 31 – Patient Care 2: Eye and ENT Worksheet

Instructions:

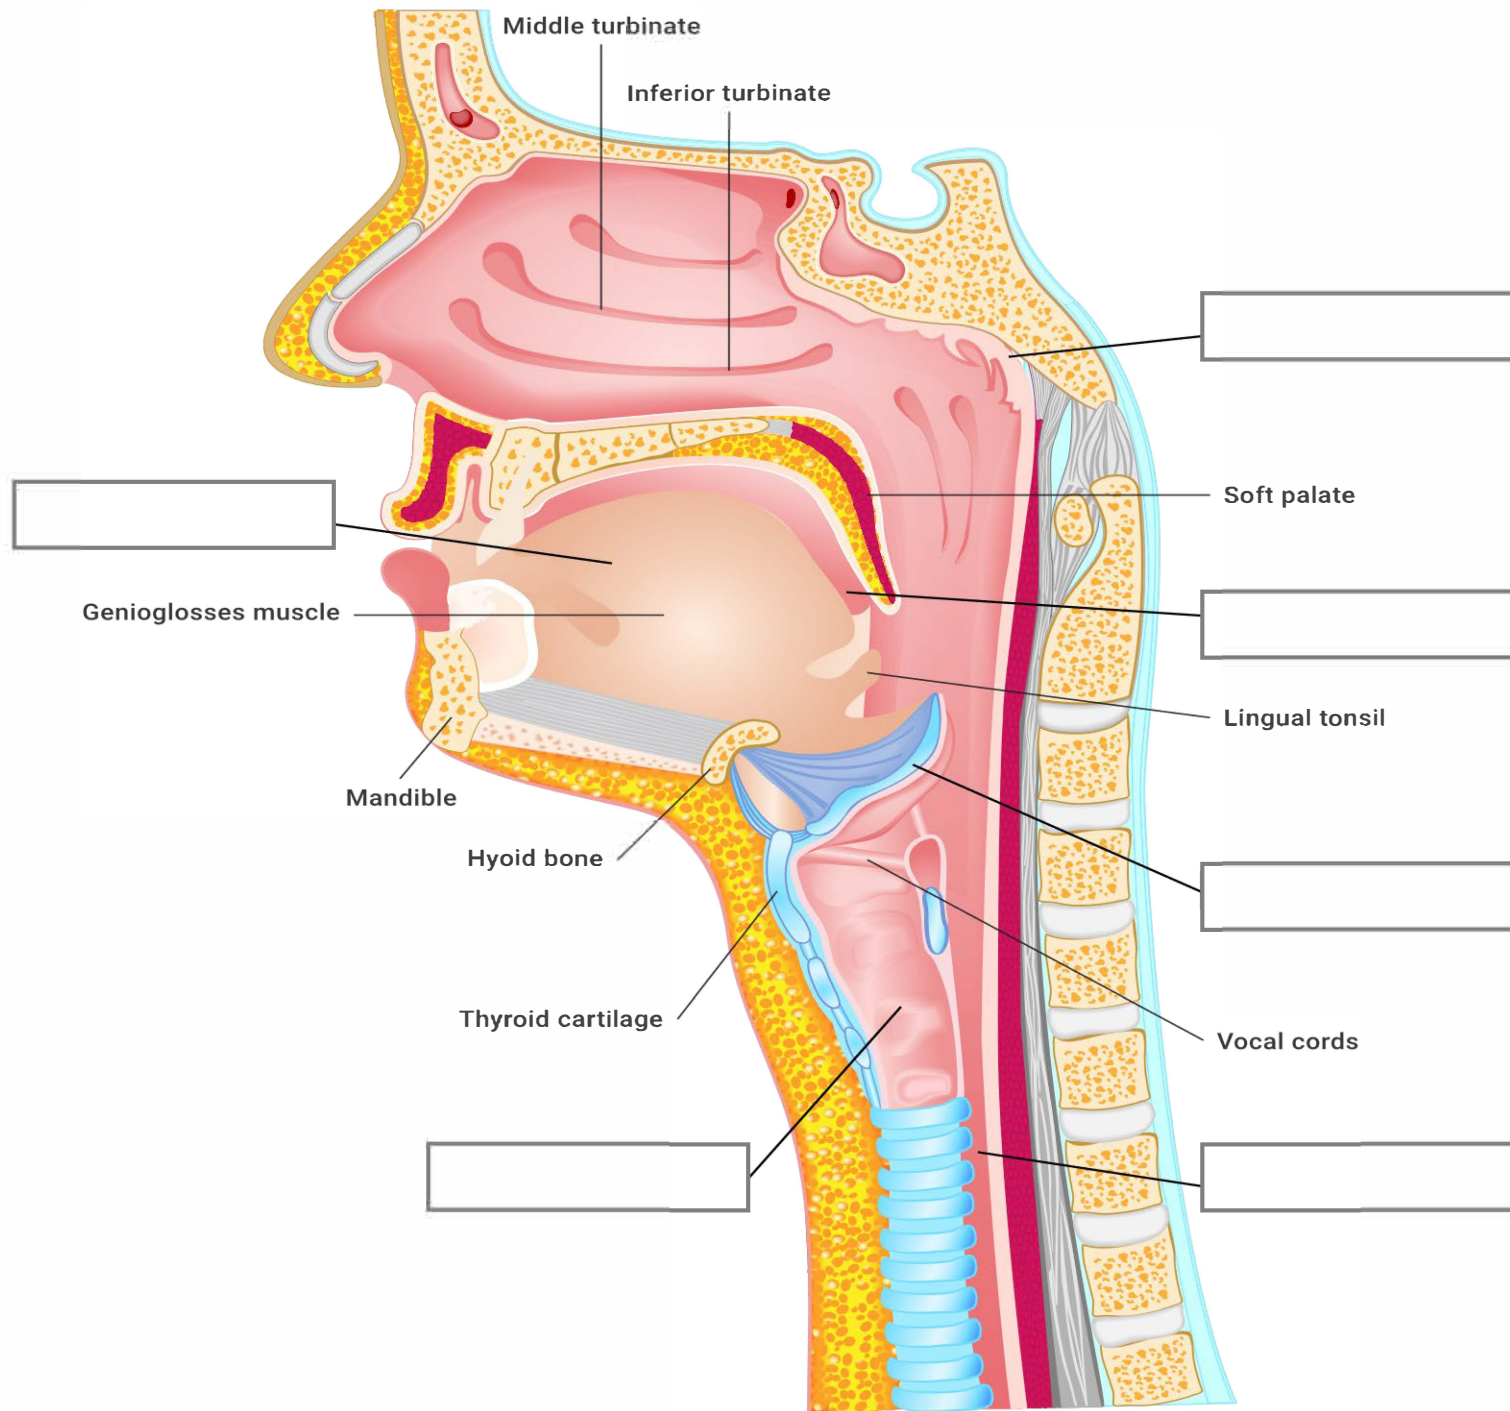

1. Challenge yourself! Attempt to complete as much of this worksheet as possible without referring to your previous notes. By doing this, you can assess your existing knowledge and highlight areas for improvement.
2. Use your resources: If there are gaps in your knowledge or to check your answers, refer to your resources. Actively searching for information and self-checking are effective learning strategies that enhance your retention.
3. Finalise and upload: Once your worksheet is fully complete and you have reviewed your answers, upload the document to your journal under the title '*Eye & ENT*'.

List the key functions of the eye:

List the key functions of the ear:

List the key functions of the pharynx (throat):
