# LUGE CODE OF CONDUCT SETS OUT THE RULES THAT KEEP EVERYONE SAFE

### Responsibility - Persons ride entirely and knowingly at their own personal risk.

Skyline Enterprises Ltd and its subsidiaries assumes no responsibility whatsoever for damage to person or property of anyone using the rides at this facility. Persons ride entirely and knowingly at their own personal risk. Riders must wear their protective helmet and must ensure their heels remain in the heel grooves of the Luge cart at all times. Misconduct will result in revocation without refund. Please be aware that the Luge ride is potentially dangerous (as a result of driver error) and that obstacles, both marked and unmarked, natural and man made, exist within this area.

All riders must Luge in accordance with the Luge Code of Conduct.

It's simple, and anyone can do it! Our purpose built three wheeled Luge carts are gravity fuelled and the rider has full control over speed and direction. To slow yourself or to stop the Luge cart pull the handle bars back towards you. DO NOT stop by pushing the handle bars forward.

but expectant mothers may NOT ride the Luge or Chairlift.
